TAFT WILL ACT TO SAVE CRISIS

Taking Full Responsibility Till Congress Helps

U. S. WORKERS TO BE PAID

Administration Officials Believe That Men Serving Under Statute May Keep on With Work—Cabinet Finds No Law to Stop Them.

Washington, June 29.—After conferences with the law officers of various departments held yesterday, it was said at the White House that without further delay, and probably before night, President Taft would issue a statement assuming full responsibility for keeping all departments and branches of the government running on Monday, in spite of the fact that the present appropriations expire on Sunday at midnight and no provision has been made for the payment of government employees after that.

The cabinet meeting yesterday discussed the complex situation from every angle. The records had been searched for a precedent and Mr. Taft received written opinions from the comptroller of the treasury and other officers who pass upon the legality of government expenditures.

The president also had a talk over long distance telephone with Representative Fitzgerald, chairman of the appropriations committee, who was attending the Democratic convention at Baltimore.

Regarding the operation of the government on and after Monday, when all present appropriations end, and until such time as Congress provides new funds, it was the consensus of opinion that no branches of the government need suspend a second.

There would be pay from future appropriations, it was pointed out, for Monday's work, and even should it be decided that government clerks cannot be paid for such work next Monday, officers of the government cannot be prosecuted for accepting gratuitous service.

Hundreds of thousands of government employees throughout the country are today wondering whether they will be without jobs on Monday, because of the failure of the president to sign the new appropriation bills or of Congress to extend the provisions of the old ones. According to statements made in Wash-

ington Thursday, no civilian employee of the state, war or navy department will be expected to report for work on Monday, consequently nothing can be done to remedy the situation.

The work of the postoffice department will shut down completely on Monday unless postmasters make personal arrangements for continuing operations or the postmaster-general is able to find another way out of the difficulty. The situation is serious, it is claimed, despite the promise of Chairman Fitzgerald of the House committee on appropriations that a resolution extending the old appropriations will surely be passed on Monday.

LABOR NOTES OF WIDE INTEREST

The American Federation of Labor recommends sending out circulars in which organized labor is requested to pledge all candidates before election, who seek legislative honors. I will be explicit as to the reasons why I am opposed to the political policy of the American Federation of Labor. I am as strongly opposed to the principle of sending out circulars which request that organized labor shall question the candidates of the Democratic, Republican or independent political parties, as to their attitude on labor legislation.

I am opposed to this begging policy of questioning the legislative candidates before election, for I believe in true, recognized friends—friends who, when elected, realize the class struggle—not forced or sham friends, who solicit the friendship of the working class before election, and after election before their avowed enemies.

This questioning policy of political candidates for public office has been carried out for years by the would-be friends of labor and resulted in placing in power men who had no interest in the welfare of the working class. As the representatives of the organized workers of the state, we should not let ourselves be guided by political hypocrisy and assist in deceiving the working class. There is not a trade unionist in Vermont but realizes that organized labor can only succeed in the election of its friends when it becomes intelligent enough to understand that there is a working class struggle, and that only those friends who stand for the rights of the working class and demand the full value of their labor are the ones who deserve the votes of the organized workers. Any other political policy will prove inadequate and prolong the suffering of the working class. The questioning and pledging of political candidates, irrespective of their political policy, will prolong the life of the political vampires, whose sole object is to live and prosper on the life blood of the working class.

Labor's eight-hour bill has been signed by the president. The law will go into effect January 1, 1913, with the single exception that the law will not be in force in the Panama Canal zone until after January 1, 1913. The pen with which the president signed the bill was presented to him by a group of labor leaders. Let us hope this much-needed law will not be declared unconstitutional after the guns

ERUPTION CAUSED TERRIBLE SUFFERING

Baby's Body Covered with Large Sores. Seemed to Itch and Burn. Finger Nails Fell Off. Little or No Sleep. Used Cuticura Soap and Ointment. In 6 Weeks Cured.

"When my baby boy was six months old, his body was completely covered with large sores that seemed to itch and burn, and caused terrible suffering. The eruption began in pimples which would open and run, making large sores. His hair came out and finger nails fell off, and the sores were over the entire body, causing little or no sleep for baby or myself. Great scars would come off when I removed his shirt."

"We tried a great many remedies, but nothing would help him, till a friend induced me to try the Cuticura Soap and Ointment. I used the Cuticura Soap and Ointment but a short time before I could see that he was improving, and in six weeks' time he was entirely cured. He had suffered about six weeks before we tried the Cuticura Soap and Ointment although we had tried several other things, and doctors too. I think the Cuticura Remedies will do all that is claimed for them, and a great deal more."

(Signed) Mrs. Noble Tubman, Dodson, Mont., Jan. 28, 1911.

For more than a generation Cuticura Soap and Ointment have afforded the most economical treatment for affections of the skin and scalp of infants, children and adults. A single cake of Cuticura Soap (25c.) and box of Cuticura Ointment (50c.) are often sufficient. Although sold by druggists and dealers throughout the world, a liberal sample of each, with 32-p. book on the skin, will be sent free, on application to Potter Drug & Chem. Corp., Dept. 18A, Boston.

of the forthcoming election have ceased their cannonade.

In Lancashire, Yorkshire, Derbyshire and Cheshire cotton mills, the campaign against half-timers has been and is being pushed vigorously by trade union officials. A late report from Blackburn, the largest cotton weaving center in the world, shows that half-timers in that borough have decreased the last ten years from 2,592 to 1,399.

Two new textile workers' unions were formed last week in Burlington and Winooski. General Organizer Charles Miles of the textile workers, assisted by General Organizer Cal. Wyatt of the American Federation of Labor, and officials of the Vermont state branch, A. F. L., are responsible for this pleasing information from the Queen city.

Four thousand molders have been locked out at Falkirk by the light casting section of the employers of the Scottish Federation of Iron Masters. Glasgow and Edinburgh are affected, the stoppage touching every section of the iron-founding industry in the east and west of Scotland.

A resolution calling for an investigation

tion and report regarding the high price of coal to consumers has been favorably reported to the House of Representatives at Washington, D. C., by the interstate commerce committee. If the resolution passes Congress, Secretary Nagel will be required to certify how much and in what particulars the coal miners were benefited by the recent strike agreement and how much and for what reasons and by what means the cost of coal to the general consumer was at the same time increased.

Organized labor has successfully carried the fight into the enemy's country and declared victorious insofar as one staunch organization is concerned. In "Gripe-nuts town," Battle Creek, Mich., the Amalgamated Association of Street and Electric Railway Employees has secured an agreement with the local traction company, in spite of the fact that C. W. Post is the "big noise" in and around the city where is manufactured "edible sawdust." The traction company is now operating a union road, every employee being a member of the street carmen's union.

Said that great humane philosopher, Thomas Carlyle: "This that they call the organization of labor is the universal vital problem of the world."

Upon authority which has never been questioned, it is stated that the Sears, Roebuck company, the large Chicago mail order concern, is the largest distributor of prison-made goods in the country. The company absorbs a large portion of the output of the skirt factory at the West Virginia penitentiary at Moundsville, the contract being held by the Kraft Manufacturing company. Sears, Roebuck company also handles the output of the shoe factory at the Connecticut penitentiary, operated by the Charter Oak Shoe company, as well as handling the product of the Holman Manufacturing company, the American Fork & Hoe company, and other convict contracting corporations.

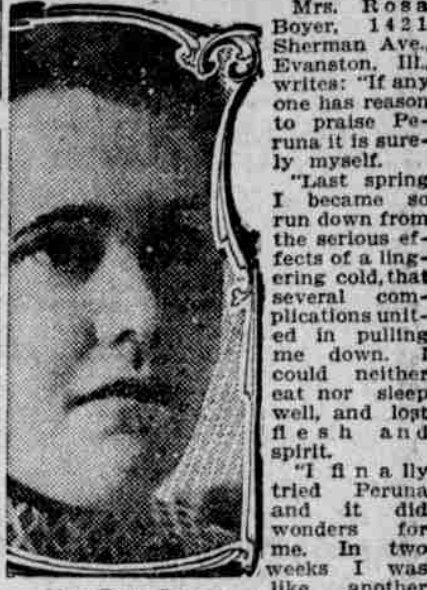

Demand the union label, and if you can't get it in one store, try another. There is nothing you need, unless it be angels' wings, but what you can get bearing the birthmark of honest labor—the union label.

It has developed in the strike of the laborers in the city of Newark, N. J., that the strike breakers, who have taken the places of the strikers, are being housed and fed in addition to receiving \$3.50 per day. This shows to what extent some employers will go just for the purpose of fighting organized labor. The strikers only asked that they receive \$2 a day, which the employers maintained they could not afford. It is apparent that the employers would rather fight union labor than to administer justice.

Sweet poets have sung of the beauties of home, its comfort, its love and its joy; How back to the peace of its sheltering dome, Is welcomed the prodigal boy, They picture his father with pardoning smile, And glittering robes to unfurl;

LOST APPETITE AND HOPE

Neglected Cold Caused Complication, Promptly Restored by Peruna.

Mrs. Rosa Boyer. "I felt better than I ever had before."

"I think Peruna for new life and strength. I send you two pictures, so you can see what Peruna has done for me."

But none of the poets have thought it worth while To sing of the prodigal girl. The prodigal son can resume his old place As leader of fashion's mad whirl, With never a hint of his former disgrace— Not so for the prodigal girl. The girl may come back to the home she has left, But nothing is ever the same; The shadow still lingers o'er dear ones bereft, Society scoffs at her name. Perhaps that is why, when the prodigal girl Gets lost on life's devious track, She thinks on the lips that will scornfully curl, And hasn't the heart to come back, Yes, welcome the prodigal son to his place, Be merciful, gracious and just: But shut not the door to his trail sister's face. Remember she, too, is but dust. —Miss Harriet Bradley, Alex. Ironside, Correspondent.

Birt's Head for the Wash Hair & Scalp

Its use insures scalp cleanliness and freedom from dandruff, and produces a healthful activity of the glands, which is of vital importance in maintaining the lustre and growth of the hair. An ideal shampoo for adults and infants. In hygienic tubes, 25c. At all druggists.
